

Simplicity Package

1. SSEN will aim to issue 8 'Event Requests' by the MSP End Date.
2. The MSP 'End Date' is either the last day of the MSP agreement (3 months after the start date), or the day that you have 'Successfully Delivered' your 5th event.
3. If SSEN does not request all 8 events by the end of your MSP contract date, then these 'Uninstructed Events' may be considered as having been delivered by you successfully.
4. For an event to be considered to have been 'Successfully Delivered' it should either be an 'Uninstructed Event' (as described above) or for 'Requested Events', you need to have delivered at least 65% (or more) of the flexible capacity you were contracted to deliver for each event. This will be evidenced by your meter data.

What will I be paid?

Upon MSP
End Date, have you
successfully delivered
5 or more events
(including any
Uninstructed Events)

YES

NO

£0.35/kW x Flexible Capacity x 5 events
Note: the total number of events paid
for above will never equal more than 5

+

£0.80/kW x Flexible Capacity

Payable by the Company to the Provider
within 30 Business Days of

Delivery Payment

£0.35/kW x Flexible Capacity x Total number
of successfully delivered events
(including any non-instructed events)

Payable by the Company to the Provider
within 30 Business Days of MSP End Date

BONUS

Upgrade Package

1. SSEN will aim to issue 40 'Event Requests' by the MSP End Date.
2. The MSP End Date is either the end of the MSP agreement period (February 2023), or the date of your 30th 'Successfully Delivered' event.
3. If SSEN does not request all 40 events by the end of your MSP contract date, then these 'Uninstructed Events' may be considered as having been delivered by you successfully.
4. For an event to be considered to have been 'Successfully Delivered' it should either be an 'Uninstructed Event' or for 'Requested Events', you need to have delivered at least 65% (or more) of the flexible capacity you were contracted to deliver for each event. This will be evidenced by your meter data.
